Paolo Fiol

paolo.fiol97@gmail.com | Plantation, FL | https://paolofiol.github.io/

Full-Stack Software Developer with 3+ years of experience building scalable web applications and AI-powered tools. Proficient in the MERN stack, Next.js, and PostgreSQL, with hands-on experience integrating LLMs (Google Gemini) for structured AI output in production applications.

Work Experience

Full-Stack Software Developer, TCS Tata Consultancy Services — July 2022 – Oct 2025

- Led feature development for workforce management suite serving 60K+ employees with AngularJS & Node.js
- Designed and optimized database queries, migrating multiple legacy queries from using subqueries to table joins
- Maintained our automated CI/CD scripts and delivered an optimization that cut our test pipelines times by 50%
- Debugged code to identify and resolve the root cause of issues, enhancing software reliability
- Mentored junior engineers through code reviews and pair programming sessions

Skills

Programming Languages: JavaScript, TypeScript, Java, C++, Python, SQL, PostgreSQL, HTML, CSS, NoSQL

Frameworks / Libraries: React, Angular, Next.js, Cloudinary, React Testing Library, MongoDB, Tailwind CSS, Drizzle ORM

Tools / Runtimes: Node.js, Webpack, Vite, Docker, Git, Azure DevOps, Postman, Redis

AI Tools: Google Gemini, OpenAI API, Claude Code, LLM Integration, Prompt Engineering

Projects

Resume Reframe – AI Resume Tailoring App: https://reframe-smoky.vercel.app/

- A full-stack AI-powered resume tailoring tool that generates customized resumes and cover letters from job descriptions. Features email/password and Google OAuth authentication, application tracking dashboard, .docx export, and file upload support for .pdf and .docx resumes. Rate limited per user via Upstash Redis. Built with Next.js 15/PostgreSQL/Drizzle ORM/Google Gemini. Deployed via Vercel with continuous integration.

Social Network App: https://social-network-app-pi.vercel.app/

- A scalable social network platform with real-time updates. Features user profiles, posts, likes, comments, notifications, E2E encrypted real-time messaging and image upload via Cloudinary. Built with React/Express/MongoDB. Deployed via Vercel with continuous integration.

Education

University of Florida – Bachelor of Science in Computer Science — May 2022

- **Coursework: Data Structures & Algorithms, Database Systems, Operating Systems, Principles of Software Engineering**
