

Paolo Fiol

paolo.fiol97@gmail.com | Plantation, FL | <https://paolofiol.github.io/>

Full-Stack Software Developer with 3+ years of experience building scalable web applications and AI-powered tools. Proficient in the MERN stack, Next.js, and PostgreSQL, with hands-on experience integrating LLMs (Google Gemini) for structured AI output in production applications.

Work Experience

Independent Software Engineer – Resume Reframe App (SaaS)

March 2026 – Present

<https://resume-reframe.com/>

- Built and deployed a full-stack, AI-powered resume tailoring SaaS with Next.js 15, PostgreSQL, and Drizzle ORM, integrating Google Gemini to generate job-specific resumes and cover letters from pasted job descriptions
- Implemented email/password and Google OAuth authentication, an application-tracking dashboard, .docx export, and .pdf/.docx resume upload parsing, with per-user rate limiting via Upstash Redis and subscription billing via Stripe
- Set up continuous deployment on Vercel and shipped iterative releases to a live production application

Software Engineer, Tata Consultancy Services

July 2022 – Oct 2025

- Led feature development for workforce management suite serving 60K+ employees with AngularJS & Node.js
- Designed and optimized database queries, migrating multiple legacy queries from using subqueries to table joins
- Maintained our automated CI/CD scripts and delivered an optimization that cut our test pipelines times by 50%
- Debugged code to identify and resolve the root cause of issues, enhancing software reliability
- Mentored junior engineers through code reviews and pair programming sessions

Skills

Programming Languages: JavaScript, TypeScript, Java, C++, Python, SQL, PostgreSQL, HTML, CSS, NoSQL

Frameworks / Libraries: React, Angular, Next.js, OAuth, React Testing Library, MongoDB, Tailwind CSS, Drizzle ORM

Tools / Runtimes: Node.js, Webpack, Vite, Docker, Git, Azure DevOps, Postman, Redis

AI Tools: Google Gemini, OpenAI API, Codex, Claude Code, Copilot, LLM Integration, Prompt Engineering

Projects

Social Network App: <https://social-network-app-pi.vercel.app/>

- A scalable social network platform with real-time updates. Features user profiles, posts, likes, comments, notifications, E2E encrypted real-time messaging and image upload via Cloudinary. Built with React/Express/MongoDB. Deployed via Vercel with continuous integration.

Education

University of Florida – Bachelor of Science in Computer Science

Graduated May 2022

- **Coursework:** Data Structures & Algorithms, Database Systems, Operating Systems, Principles of Software Engineering
